

NOVIN CARBON

From Ashes To Innovation

WHO WE ARE & WHERE WE OPERATE

Novin Carbon leads the carbon industry with over 13 years of expertise, producing premium charcoal and advanced machinery for global markets.

With CE certifications and a commitment to sustainability, we innovate to meet industry needs.

Exporting
To Over
16+
Countries

Monthly
Production
150+ Tons

Over 15
Years Of
Global
Experience

Over 100
Contracts
Worldwide

EXPORT LOCATIONS

U.S., Germany, Sweden, Denmark, Finland, Spain, Iraq, Turkey, and +10 more,.

INTERNATIONAL SHIPPING

Adheres to Incoterms standards for secure and timely delivery.

SUSTAINABILITY COMMITMENT

Sustainability is at the core of Novin Carbon’s operations. By using 100% pistachio shell, avoiding wood, and deploying energy-efficient machinery, we reduce environmental impact and set a benchmark for eco-friendly practices in the carbon industry.

OUR PREMIUM PRODUCT LINE

87% pure carbon for optimal performance and efficiency

Burns for 1.5–3 hours, ensuring long-lasting use

Durable, gas-free, resilient, with only 5.6% ash residue

Scalable production, private labeling, and tailored packaging

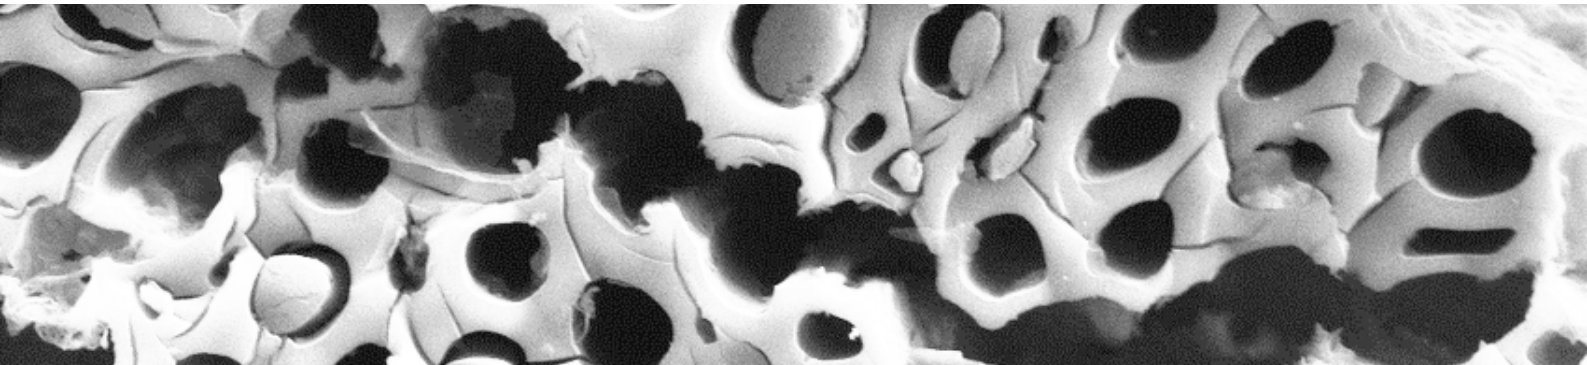

ULTIMATE FILTRATION & ACTIVATED CARBON

Our offerings include activated carbon (PAC and GAC) for water treatment, air purification, and industrial processes, alongside eco-friendly nano polymers designed to enhance charcoal strength and durability with premium export quality.

PURIFY & STRENGTHEN

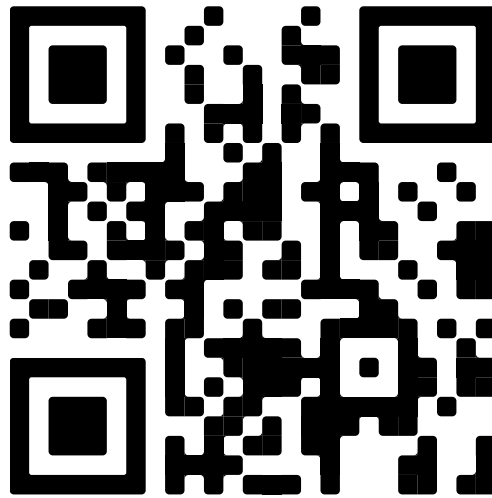

ECO INNOVATION

EXPERT CONSULTING

Elevate your production with expert consulting services designed for excellence. We guide you in selecting premium, smoke-free raw materials, optimize efficiency and output with your existing machinery, and deliver tailored formulas for unmatched results. Unlock your production's full potential with solutions crafted for success.
